

BIERRE

FABBRICA CHIAVI PER SERRATURE DAL 1948

BIERRE È LA PRIMA FABBRICA ITALIANA DI CHIAVI PIATTE
PER SERRATURE A CILINDRO E INVENTORI DEL PROFILO
UNIVERSAL

*BIERRE IS THE FIRST ITALIAN FACTORY OF FLAT KEYS FOR
CYLINDER LOCKS AND INVENTORS OF THE UNIVERSAL
PROFILE*

Nel 1948 un operaio specializzato in serrature di sicurezza crea per la prima volta in assoluto una fresatura universale che si adatta alla maggior parte dei cilindri e delle serrature italiane, utilizzata tutt'oggi nel settore della duplicazione e fonda la **"PB Universal"**. Questa ditta ha come scopo la fabbricazione e la vendita all'ingrosso e al dettaglio delle chiavi in ferro con marchio PB Universal, realizzate con la nuova fresatura, più sottile ed adattabile delle altre in commercio. Nel 1965 gli succede il figlio **Ruggero**, che cambia la ragione sociale dell'azienda in **"BR di Beccarini Ruggero"**. La successione dà anche lo spunto ad un adeguamento aziendale alle esigenze del mercato in evoluzione. Nella produzione italiana si sostituisce l'utilizzo del ferro, materiale che sottopone ad usura precoce le attrezzature delle ferramenta, con una lega di ottone, selezionata e certificata, che in quel periodo incontra le preferenze di rivenditori e negozianti e viene allargata la fascia produttiva ad altri profili simili di fresatura, già presenti sul mercato. Nel 1998 l'attività viene ceduta ai fratelli **Raimondi**, già presenti da decenni sul mercato di chiavi e serrature, che ne continuano l'attività sotto la denominazione di **"Bierre S.r.l."**. Nel 2005 la Bierre S.r.l. assorbe la ditta **"Cabit di Bernardi Oreste"**, specializzata nella fabbricazione di chiavi di sicurezza ed offre così, anche grazie all'acquisto di nuovi macchinari ed attrezzature sempre più all'avanguardia, un'ulteriore ampliamento della gamma e un migliore servizio alla clientela.

In 1948 Pietro Beccarini, a worker specialized in security locks, invented a universal milling suitable for most of Italian cylinders and locks. Today this milling is still used in the processing of duplication keys. Pietro Beccarini based "PB Universal". The Company's mission is to produce and to sell in wholesale and in retail iron keys with PB Universal Brand; these keys are made with the new milling, and they are thinner and more adaptable than others on the market. In 1965 Pietro Beccarini's passed the company to his son Ruggero, who decided to rename it "BR of Beccarini Ruggero". This passage was useful to renew business strategy and to adapt the company to meet the needs of rapidly changing markets. The production changed with the replacement of iron (a material which causes early wear of hardware equipments) with a selected and certificate brass league, which in that time was preferred by dealers and shopkeepers. It was in that period that production contacted other kinds of milling already on the market. In 1998 the company was transferred to Raimondi brothers, who have worked in the key and lock business for ten years. Raimondi brothers continued the activities under a new brand: "Bierre S.r.l.". In 2005 Bierre S.r.l. incorporates "Cabit di Bernardi Oreste", a company specialized in security keys production. Since that time, it has offered a wider range of products, even thanks to innovative machineries and equipments, and better customer service.

DUPLICATRICES
SCHLÜSSELFRÄSMASCHINEN
DUPLICADORAS

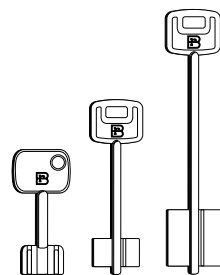

ATHENA

- Macchina duplicatrice per chiavi doppia mappa pompa
- Macchina conforme alle normative CE
- Dimensioni: mm 400 x 400 x 250
- Fresa: WIDIA 80 x 1,5 x 16
- Peso: 17 kg

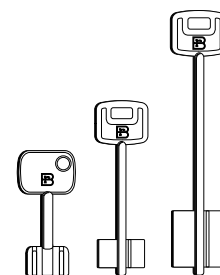

ATHENA PLUS

- Duplicatrice per chiavi a doppia mappa e pompa
- opzionalmente è disponibile un carrello per intagli verticali
- Macchina conforme alle normative CE
- Dimensioni: mm 420 x 400 x 350
- Fresa: 80 x 22 x 1,5 WIDIA
- Peso: 25 kg

FA 990

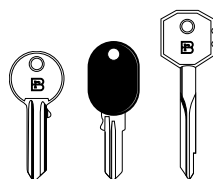

- Macchina duplicatrice per chiavi mappa, doppia mappa e pompa
- Estremamente versatile, facile da usare e precisa
- Peso: 7 kg
- Carrelli intercambiabili senza bisogno di interventi di taratura
- Dotata di un sistema di leve orizzontali che rendono la movimentazione affidabile e maneggevole
- Morsetti autocentrati temperati e zigrinati
- Morsetti sfalsati per la duplicazione di chiavi senza limiti di lunghezza

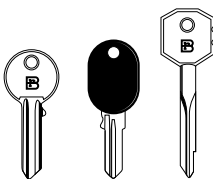

PRIUS

- Macchina duplicatrice per chiavi a cilindro, auto e croce
- Macchina conforme alle normative CE
- Dimensioni: mm 400 x 400 x 250
- Fresa: 80 x 5 x 16 HSS
- Morsetti reversibili
- Peso: 17 kg

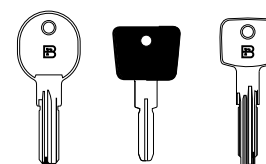

PRIUS PLUS

- Duplicatrice per chiavi a cilindro, auto e a croce
- Morsetti reversibili
- Macchina conforme alle normative CE
- Dimensioni: mm 360 x 240 x 220
- Fresa: 80 x 5 x 16 HSS
- Peso: 25 kg

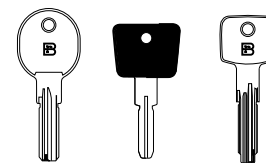

XERON

- Macchina duplicatrice per chiavi punzonate e tracciate
- Bloccaggio manuale di tutte le parti in movimento
- Morsetti specifici opzionali consentono la duplicazione di diverse tipologie di chiavi
- Cambio rapido per mandrini porta utensili e tastatore, si possono sostituire senza intervento sulla taratura
- Macchina conforme alle normative CE
- Dimensioni: mm 320 x 350 x 400
- Peso: 33 kg

XERON PLUS

- Macchina duplicatrice per chiavi punzonate e tracciate
- Bloccaggio manuale di tutte le parti in movimento
- Morsetti specifici opzionali consentono la duplicazione di diverse tipologie di chiavi
- Cambio rapido per mandrini porta utensili e tastatore, si possono sostituire senza intervento sulla taratura
- Volantino per avanzamento graduale su guide a sfere temperate
- Macchina conforme alle normative CE
- Dimensioni: mm 350 x 350 x 400
- Peso: 33 kg
